Welcome to The Food & Beverage Expo

Embrace the future of the food and beverage industry at the Lanka Food & Beverage Expo, where cutting-edge technology meets culinary excellence. Join us for a unique exploration of the innovations shaping the way we grow, prepare, and experience food and beverages.

The F&B Expo is one of its kind, knowledge platform that brings to its audience information from the food and beverage technology space. The event has a wide scope for business networking from different ends of the spectrum. We bring together senior decision-makers from leading organizations, food businesses like food processing industries, cold chain sector, hotels, and their counterparts in their domains under one roof so that they can share their wisdom, knowledge and technological expertise among peers—accelerating the growth of the space.

Event Highlights Technology Showcase

Immerse yourself in a world of innovation with hands-on demonstrations of the latest technologies transforming the food and beverage landscape. From automated cooking systems to smart packaging solutions, witness the future in action.

Smart Kitchen Pavilion

Step into the kitchen of the future at our Smart Kitchen Pavilion. Experience intelligent appliances, connected devices, and state-of-the-art culinary gadgets designed to enhance efficiency, precision, and creativity in the culinary process.

Sustainable Solutions

Showcase sustainable practices and technologies that are reshaping the industry. Discover eco-friendly packaging, waste reduction solutions, and advancements in sustainable agriculture that contribute to a greener and more responsible food and beverage ecosystem.

Robotics and Automation

Witness the role of robotics and automation in streamlining food production and service. From automated cooking processes to robotic bartenders, explore how technology is revolutionizing the way we prepare and serve food and beverages.

Data Analytics and AI

Delve into the power of data analytics and artificial intelligence in shaping the future of the industry. Display predictive analytics, machine learning, and AI-driven insights that are optimizing supply chains, enhancing customer experiences, and driving business growth.

Networking and Collaboration

Connect with tech innovators, industry leaders, and entrepreneurs at our networking events. Foster collaborations that bridge the gap between technology and culinary arts, paving the way for groundbreaking advancements.
